Cath Lab & CTVS

Our Journey

Sharda Hospital, commenced operations in 2005 and is providing comprehensive, seamlessly integrated, world-class healthcare services. More than ten years of faith and solidarity reposed on us by the people encourages us to strive harder & to improve our capabilities further, for the benefit of the society.

Our vision is to deliver world-class healthcare with a service focus by creating an institution committed to the highest standards of medical & service excellence, patient care, scientific knowledge and medical education. We have set ourselves the mission of creating unparalleled standards of medical& service outcomes. Our aim is to be a care provider of first choice, be the principal choice for physicians, and be committed to follow ethical practices.

- 2005** Sharda Hospital started it's Services along with School of Dental Sciences
- 2007** Sharda Hospital established it's Medical Services in the region and become a hospital of choice
- 2009** Sharda University (A deemed university) was established.
- 2009** School of Medical Sciences & research got established and first batch of MBBS started.
- 2015** Superspeciality services in the field of Cardiology & Cardiothoracic Surgery Started.

No. of Outdoor patients treated : **20 Millions+**

No. of Indoor patients treated: **3 Millions+**

No. of Radiological investigations (CT Scan etc): **3 Millions+**

No. of Surgeries performed: **1 Million+**

State-of-the-art Equipment

- **MRI**
The Hospital is equipped with 3 Tesla volume MRI. The special feature of the 3 Tesla MRI is its ability to generate 3D images, which cuts the acquisition time by half and increases the comfort and convenience for the patients.
- **CT Scan**
128 Slice volume CT Scan capable of generating high quality 3D images.
- **Cath Lab**
Flat panel combo Cath. Lab with 3D reconstruction, DSA and Electrophysiological studies.
- **Blood Bank**
A state-of-the-art Blood Bank meeting all standards has been set up with facilities like Aphaeresis and Blood Component Separation.
- **Laboratories**
The Hospital has one of the most well equipped labs in Delhi NCR for entire gamut of diagnostic services in Haematology, Biochemistry, Microbiology and Histopathology.
- **Ultrasound**
Ultrasound machines with 3D imaging and whole body Doppler.
- **Mammography**
Low radiation digital imaging.
- **X - Ray**
with high frequency low radiation digital radiography.
- **Bone Mineral Density**
Whole body mineral density scan (Dexa Scan) capable of giving instant reports.
- **Dental Facilities**
Sharda Hospital has fully integrated and automatic dental chairs complemented by low radiation and high precision digital X-Ray.
- **Endoscopy Services**
The Hospital has a endoscopy facilities available for Gastroenterology and Pulmonology Endoscopic procedures like ERCP, Stenting, UGIE, Colonoscopy etc are available.
- **Ambulance Services**
The Hospital has a fleet of Ambulances fully equipped with Advanced Life Support System for all kinds of emergencies.
- **Dialysis**
with most modern machines in safest and convenient environment.

Key Features

Emergency Medicine

- 24 x 7 Trauma Care
- BLS and ACLS Ambulances
- High Speed Evacuation
- Disaster Management
- Emergency Care during the 'Golden Hour'
- Neuro and Cardiac Emergencies

Intensive Care Unit (ICU)

- 90 Bed ICU
- State-of-the-art equipment and monitoring
- Advanced Ventilator Support and Dialysis
- Neuro Critical Care
- Cardiac Critical Care
- Neonatal and Pediatric ICUs

Surgical Specialties

- Neuro Surgery
- Surgical Oncology
- Minimal Access Surgery
- Laparoscopic Surgical Procedures
- High Risk Surgical Procedures
- Advanced Epilepsy Centre

Cardiac Sciences

- Cath Lab
- Non-Invasive Cardiac Lab
(TMT, 2-D Echocardiography, Holter, PFT)
- Stress Echo using Digitized Machine
- Cardio thoracic Surgery.

Nephrology

- Work-up for Kidney Diseases
- Kidney Transplant*
- State-of-the-art Dialysis Centre
- Round-the-clock Emergency Haemodialysis in the ICU
- Separate Haemodialysis machine for Hepatitis B patients

Orthopaedics

- Knee & Hip Replacement, Uni-Compartmental Knee Replacement
- Arthroscopic Management of Knee, Shoulder & Ankle problems, Complex Fracture Clinic
- Osteoporosis Clinic
- Management of sports injuries
- Spinal Surgery

Obstetrics & Gynaecology

- Painless delivery
- C-Section
- High risk Pregnancy Clinic
- Infertility clinic
- Cancer Detection Clinic with facilities for Colposcopic Evaluation
- Family Planning services
- Fully equipped Labor Room for normal and high risk pregnancies
- Ante-Natal Screening

Oncology

- Surgical Oncology
- Chemotherapy[#]
- Practice of 'Evidence based Cancer Management'
- Palliative Care for Advanced Cancers by trained professionals
- Physiotherapy for patients disabled by extensive cancer treatment

ENT, Head and Neck Surgery

- State-of-the-art ENT Station
- 3rd Generation Diagnostic Audiometry for evaluating deafness
- Minimal Invasive Surgery for Sinus & Ear problems with modern equipment

Dental

- Panel of super specialists including Orthodontists, Oral & Maxillofacial Surgeons available round the clock
- Equipped with state-of-the-art imported dental chairs with high quality dental materials for all procedures

Ophthalmology

- Complete eye care facility including routine eye check-up
- Glaucoma unit
- Cataract, Squint & Retina unit
- Eye Surgeries & Micro-Surgeries including Phacoemulsification
- Stitch-less surgery

Pediatrics

- Complete Child Care (CCC) approach
- General pediatric care
- Subspecialty clinics, Immunization, New Born follow up Special wards
- Monitoring of all important parameters with a drop of blood
- Facility of Exchange Transfusion, peritoneal dialysis, photo therapy, surfactant therapy for very premature babies
- State of art 12 beds NICU & 5 beds PICU with all latest equipment and side micro lab.

Radiology

- MRI (3 Tesla)
- Contrast procedures like IVP, MCU, RGU
- Ultrasound of various parts like the Abdomen, KUB, Pelvis, Obstetrics, Chest, Breast, etc.
- Color Doppler (both Arterial and Venous of Extremities, Splenoportal System, Kidneys, Carotid)
- Mammography & CT Scan

Laboratory Medicine

- Complete range of laboratory investigations available round-the-clock with auto analyzer facilities.

Urology

- Top-grade investigative and treatment facilities like Urodynamics Machine, Laparoscopic Urology
- TURP & TUBT
- State-of-the-art Operation Theater

Dermatology

- Acne management
- Psoriasis treatment
- Vitiligo management
- Hair & Nail Clinic
- Cosmetology & Dermatosurgery
- Clinic for Sexually Transmitted Diseases (STDs)
- Allergy testing

Physiotherapy

- Fitness and Health Promotion Clinic
- Special sessions for the care of senior citizens
- Physiotherapy for burns and plastic surgery cases
- Special women clinic for Pre and Post-Natal Care and advice for Gynecological problems

International Patient Services

Sharda Hospital, a part of Sharda University is geared to welcome international patients. We offer the highest standards in cutting-edge technology led by a dedicated team of doctors. We ensure a hygienic environment and personalized care.

Our International Patient Services will organize your treatment packages, visa assistance, airport pick up, hotel reservations and any sightseeing trips you may want to add after your recovery. These services include coordinating scheduling of appointments, medical care and advice and ensuring your comfort and well being.

Our International Patient Services Include:

- Appointment scheduling
- Treatment packages in advance
- Visa assistance
- Airport pick-n-drop facility
- Hotel reservations, (if needed)
- Language interpreters
- Express check-in through our dedicated international patient's lounge
- In-house business centre
- Choice of international cuisine
- International newspapers & internet access in the room
- The recliner's lounge for your comfort
- Dedicated International executive during your entire stay with us at 'Sharda Hospital' for all your medical & non-medical needs
- Ambulance pick up if required
- Concierge services for dining & entertainment
- Follow up assistance for future appointment scheduling after discharge

Department of Trauma, Critical Care Emergency

Facilities

- 24 hours Treatment of Accident & Injury
- 24 Hours Ambulance, Mobile ICU and Emergency response Team
- Emergency ICU Backup
- Emergency Operation Theater (24x7)
- 24 Hours facilities of Blood bank, X-Ray, CT Scan, MRI & Pathology
- Intensive Care with Ventilator
- Cardiac ICU
- Medical ICU
- Surgical ICU
- New Born Baby & Children Treatment ICU
- Bedside Echo with Non invasive ventilator
- Sonography, Bronchoscopy, GI Endoscopy, Tracheostomy
- Sepsis, Poisoning, Multi organ failure, Neurology, Gynecology,
- Gastroenterological surgery, Multimodality intensive care

Team

- Critical care specialist
- Anaesthetist
- Cardiologist:
 - Interventional Cardiologist
 - Orthopaedics
- Cardiothoracic Surgeons
- Neurologist
- Neurosurgeons
- Neuro-Anaesthetist
- Brain Rescue Team (for Stroke)
- Trauma Surgeons
- General Surgeons Technicians
- Nurses

Specialized Programs

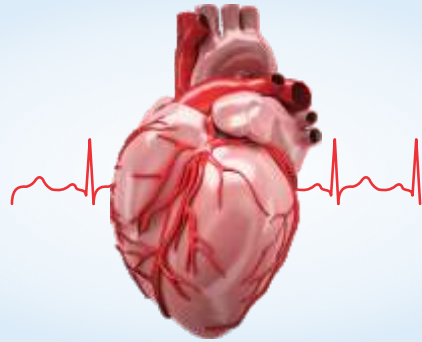

- Tier Triage System
- Observation area
- Heart Command
- Trauma Centre & Operation Theatre
- Emergency Medical Services:
 - Air Evacuations
 - Surface Evacuations

Each of our Surface Ambulance is Equipped with:

- Mobile Ventilator
- Cardiac Monitor
- Defibrillator
- Oxygen
- Infusion Pump
- Team of Trained Doctor
- Connected through Tele-medicine & GPRS

Department of Cardiac Science & Cardiothoracic Surgery

Sharda Hospital has a team of renowned, experienced and highly qualified cardiologists available 24x7 to attend to all cardiac emergencies. We follow the latest international AHA guidelines in performing all cardiac procedures.

Facilities

- ACLS Ambulance
- Flat Panel Cath Lab Philips
- ICCU
- CTVS ICU
- Modular CTVS OT
- 128 Slice CT- CT Coronary Angiography

Features

- **Non-Invasive Cardiology**
 - ECG & Treadmill Test (TMT)
 - 2D-Echocardiography, Stress Echo
 - Holter Monitoring, PFT
 - 24 hr ambulatory blood pressure monitoring[#]
- **Invasive Cardiology**
 - Angiography, Angioplasty Stenting (only US FDA approved stents)
 - Balloon Valvuloplasty (all valves)
 - Balloon Angioplasty (coronary, carotid, renal, legs)
 - Percutaneous closure of cardiac defects (ASD, VSD, PDA, etc.)
 - Percutaneous ablation for hypertrophic cardiomyopathy (PTSMA)
- **Electrophysiology[#]**
 - Electrophysiology Studies (EPS) for diagnosis of Cardiac Arrhythmia (conventional and 3-dimensional mapping system)
 - Radiofrequency Ablations (RFA) of complex Cardiac Arrhythmias
 - Pacemaker Implantation Biventricular
 - Pacing (Cardiac Resynchronization Therapy) for heart failure
 - Automatic Implantable Cardioverter Defibrillator (AICD) implantation, Comprehensive Device Follow up Clinic (Pacemaker, CRT, AICD)
- **Cardiothoracic Surgery**

Department of Orthopaedics & Joint Replacement

Facilities

- Zero injection post-surgical ICU
- World-Class implants
- Physiotherapy & Rehabilitation
- Dedicated Orthopaedic Operation Theatre
- Laminar Airflow, Image Intensifier and AO instrumentation
- Pneumatic & Electric Drill System and Electric Tourniquet System
- Superspeciality services

The department has a well coordinated and supportive team of expert faculty, senior residents, junior residents, surgical staff and dedicated nurses who are available round-the-clock.

Features

- Inpatient beds segregated into pre operative, post operative and infectious cubicle
- Total Knee and Hip Replacement surgeries done regularly
- Arthroscopic Minimally Invasive Joint Surgery practiced and performed regularly
- Ilizarov Surgery that is widely used for treatment of infected/non infected non unions, limb length discrepancy & deformity
- Reduction of fracture and plaster application under c-arm, Plating, closed pinning, interlocking nailing, hip fracture fixation, change of ball of hip joint, wiring, pinning, external fixator application, ilizarov fixation.
- The department is well supported by Radiology, Neurosurgery & Plastic surgery department.

Department of Neurology & Neurosurgery

Facilities

- Operative Neuro Microscope
- Superspeciality services
- Dedicated Neuro ICU
- Modular OT
- EEG
- EMG

Neurosurgery is a specialty concerned with the diagnosis and treatment, both surgical and non-surgical, of disorders of the nervous system, which includes the brain, skull, spinal column and spinal cord.

Facilities

- Consultation by Senior Neurologist, MD, DM (Neuro)
- Consultation and Neurosurgeries by Senior Neurosurgeon, MS, Mch (Neurosurgery)
- Surgical and Non-Surgical treatment for Nervous system Disorder and spinal cord.
- Brain surgery like Brain Tumors, Head Injuries, Infection, Hydrocephalus
- Spine Trauma
- Spine Tumor, Congenital Spine Problem
- Degenerative Disc Disease
- Neurovascular Surgery
- Management of Trigeminal Neuralgia Surgery

Department of Nephrology & Dialysis

The Department provides services for diagnosis, treatment and Dialysis for Kidney Disorder patients.

Facilities

- Consultation for patients of Kidne Transplant and follow-up patients
- 24x7 Dialysis Facilities
- Separate Dialysis Machine for ICU and Hepatitis B patients

Department of Urology

Sharda Hospital has top-grade investigative and treatment facilities like Urodynamics Machine, Laparoscopic Urology, TURP, TUBT and modular operation theatres equipped for urological procedures.

Facilities

- Urodynamic Machine
- Laparoscopic Urology
- TURP
- TUTB
- Modular Operation Theater
- Urinary Tract System
- Kidney Surgery
- Prostrate Surgery
- Male genital organ Surgery
- Male Infertility Treatment
- Urinary Bladder Cancer Surgery
- Kidney Stone removal
- Kidney Cancer Surgery
- Follow-up Consultation and work-up for Kidney transplant patients

Department of Gastrosciences

Department of Gastrosciences at Sharda Hospital provides super speciality medical & surgical services for diseases of stomach, liver, spleen and related organ.

Facilities

- Treatment & Consultation by gastroenterology (Specialist of Abdomen & liver) MD, DM (Gastro)
- Surgery & Consultation by Gastrosurgeon (Specialist of Abdomen & liver) MS, MCH (GI Surgery)
- E.R.C.P.
- Stoppage of Upper & Lower GI Bleeding by Colonoscopy
- All type of surgery of abdomen & liver
- Whipples surgery
- Surgery of Abdomen, Liver and all type of tumors of stomach

Facilities

- GI (Upper & Lower) Endoscopy
 - Colonoscopy
 - Sigmoidoscopy
 - Esophagoscopy
 - Gastroscopy
 - Duodenoscopy

Department of General & Laparoscopic Surgery

Department of Surgery provides services of general surgery, laparoscopic surgery and minimal access surgery. The department runs Surgical Superspecialty clinics such as Neurosurgery, Urology & Oncosurgery, along with 8 advanced modular operation theaters with laminar air flow to maintain the appropriate air exchanges in OT.

Facilities

- Neurosurgery
- Urosurgery
- Oncosurgery
- Laparoscopic Surgery
- Minimal Access Surgery
- All type of surgery facilities available in Superspeciality & Speciality

Department of ENT & Head and Neck Surgery

The department of ENT and Head & Neck Surgery provides comprehensive care to patients with diseases of ear, nose, throat and head and neck, the anatomic limits being the dura above and the pleura below.

The ENT department offers routine diagnostic services in allergy, tumor, audiology, vertigo and has facilities for evaluation and treatment of speech disorders.

The department also performs ear surgeries for deafness, chronic ear discharge, surgery for cosmetic and functional problems of the nose, surgery for head and neck ailments, cancer and facial trauma. The department has facilities for endoscopy, functional endoscopic sinus surgery (FESS), laryngoscopy, esophagoscopy, bronchoscopy and microlaryngeal surgery.

Facilities

- Endoscopy
- Pure Tone Audiometry Hearing Test
- Fully equipped Operation Theatre
- Tympanoplasty and MRM
- Parotid Surgery, Thyroid and Lymphangioma Surgery
- Speech Therapy- treating problems with speech

Department of
Pediatrics & Neonatology,
NICU, PICU

Department of
Obstetrics & Gynecology

Facilities

- Neonatologist
- Pediatric Gastroenterologist
- Pediatric Urology
- Pediatric Neurologist
- Child guidance clinic
- Child behavior counselling
- Neonatology/Perinatology
- Pediatric Problems (0-14 years)
- Adolescent Medicine (14-18 years)
- Audio-Visual Aids for Teaching
- Centrally AC ICUs
- Level 2 and Level 3 neonatology
- Immunization
- Respiratory clinic
- Surgery of neonates and pediatric patients
- Laparoscopic bronchoscopy
- Pediatric oncosurgery
- Pediatric thoracic surgeries
- Follow-up clinic
- Surfactant therapy
- Peritoneal Dialysis

Facilities

- **Pregnancy related services-**
 - Pre Conception Counseling
 - Antenatal Care
 - Intrapartum Care
 - Neonatal Intensive Care
 - Postpartum Care
- **Ovulation Studies**
 - Hysterosalpingography (HSG)
 - Sonosalpingography (SSG)
 - Ovulation Induction
 - Diagnostic & Therapeutic laparoscopy,
 - Intrauterine Insemination (IUI)
 - Treatment of male infertility.
- **Gynaecological Surgeries**
 - Abdominal Hysterectomy
 - Vaginal Hysterectomy
 - Myomectomy
 - Minimal Access Surgery
 - MTP and D&C
- **Family Welfare Services-**
 - Conventional Contraceptives
 - IUCDs
 - Oral Contraceptive Pills
 - Laparoscopic Sterilization
 - Minilap and Vasectomy

Department of Internal Medicine & Allied Sciences

Facilities

- Internal Medicine
- Diabetes & Hormone Diseases
- TB & Pulmonology
- Bronchoscopy, G.I.
- Gastroenterological & Endoscopy
- Nephrology & Dialysis
- Rheumatology and other allied Medical Specialities

Department of Psychiatry

Psychiatry Department at Sharda Hospital is a fully functional department, having qualified teaching faculty from various reputed colleges of India. We have both out-patients as well as in-patients department catering to broad spectrum of psychiatric illness like Schizophrenia, Depression, Bipolar Disorder, Stress related disorders, Child psychiatry

Facilities

- **General Psychiatry Treatment**
 - Schizophrenia
 - Depression
 - Bipolar Disorder
 - Stress Related Disorder
 - Child Psychiatry
- **Speciality Clinic**
- **Headache and Psycho-Sexual Clinic**
- **Child Guidance Clinic**
 - ADHD
 - Conduct Disorder
 - Substance Abuse Disorder & Anxiety Disorder
- **Drug de-Addiction Center**
 - Detoxification
 - Short term medical management
 - Long term- Motivation Enhancement therapy
- **Psychotherapies**
 - Crisis Intervention
 - Adolescent behavior management
 - Psycho-Education
 - Stress Management
 - Marriage counseling

Department of Ophthalmology

The Department of Ophthalmology provides services for advanced world class treatment in eye diseases, Phacoemulsification, Glaucoma, Vitreo-Retina, with the aim of providing timely services which are efficient and cost effective. The eye department is fully equipped with latest state-of-the-art machines from USA and Germany providing advance surgical and medical treatment.

Cataract surgery: safe & effective phacoemulsification of cataract.

Squint and Pediatric ophthalmology: squint correction surgeries, congenital & developmental cataract extraction with IOL implantation are routinely being performed.

Ophthalmoplasty Ophthalmic Plastic surgery is a specialized area of ophthalmology dealing with cosmetic and functional deformities and abnormalities of the eyelids, the lacrimal system, the orbit.

Comprehensive Glaucoma management: is being provided with Applanation tonometry and automated visual field Analyzer.

Diagnosis and management of retina and vitreous diseases is also being developed to provide Laser treatment and operative management of blinding diseases like diabetic retinopathy and Age related macular degeneration.

Facilities

- Phacoemulsification
- Glaucoma services
- Vitreo-Retina
- Scan Ultrasound Biomedix,
- Synoptophore and Carl Zeiss operating microscope
- Automated Visual Field Analyzer
- Cataract Surgeries
- Squint and Pediatric Ophthalmology,
- Ophthalmoplasty
- Comprehensive Glaucoma Management
- Auto Refractometer
- NCT non contact tonometer
- Perimeter
- O.C.T.
- F.F.A.
- Slit Lamp
- Synoptophore
- Lensometer

Department of **Pulmonary Medicine**

The Department of Pulmonary Medicine works in coordination with the Cardiovascular Thoracic Surgery Department and the Department of Neurosciences to ensure the highest quality of care for patients with pulmonary problem. The Department of Pulmonary Medicine consists of a dedicated and well-qualified team of healthcare professionals.

Diagnostic Tests Offered

- Pulmonary Function Tests
- Flexible Video Bronchoscopies
- Spiral and High Resolution CT
- Evaluation of Breathing Disorders and Chronic Respiratory Ailments
- Evaluation and Treatment of Sleep Disorders

The Department provides super-specialty services of:

- T.B and Chest Diseases, Drug Resistant T.B.
- Interventional Pulmonology (Bronchoscopy)
- Pleural Aspirations and Biopsy
- Inter-Costal Intubation
- CT-Guided Lung Biopsies
- BiPap Ventilation, etc.
- PFT
- Thoracic Surgeries

Treatment Available For:

- Bronchial asthma
- COPD
- Sleep-disordered breathing
- Interstitial lung disease
- Cystic Fibrosis
- Occupational lung disease
- Pulmonary rehabilitation
- Tuberculosis (pulmonary and extra pulmonary)

Special Services

- Patient Education and Rehabilitation
- Asthma Self-Management Program
- COPD Rehabilitation Services
- Smoking Cessation Clinic

Department of Dermatology & Sexually Transmitted Diseases

Facilities

- Skin Biopsy
- Cryotherapy (liquid Nitrogen)
- Chemical Peels
- Anti Ageing therapy
- Microdermabrasion
- Dermaroller
- Electrosurgery
- Radiofrequency
- Vitiligo
- Dermabrasion

Department of Dermatology, Sexually Transmitted Diseases (STD) and Leprosy deals with diseases related to skin, hair and nails. Dermatology has become one of the most competitive specialty in medicine due to incorporation of cosmetology, since modern society puts great premium on youthful looks. The department performs all dermatological procedures and has 24 hours emergency facilities.

Key Highlights

- Well equipped to deal with all types of skin, hair and nail diseases
- 30 beds and daily OPD catering to 60+ patients
- Skin Biopsy, Cryotherapy and Chemical Peels
- Anti-Ageing Therapies – Botox, Fillers, Rejuvenating Peels and Photofacials
- Microdermabrasion and Dermaroller
- Electrosurgery – Skin tags and wart removal
- Radiofrequency - Removal of warts, Acne keloid Corns Cysts, Tumors, Cysts Moles
- Vitiligo Surgery - Punch Grafting and Suction Blistering Dermabrasion

Department of
Advance Diagnostic & Radiology

The Department of Radiology is equipped with latest X-ray machines ranging with 300mAs to 800mAs with fluoroscopy and image intensifier. The digital radiography (C.R) system is available providing best quality film for better diagnosis leading to better patient care. The department is also equipped with ultrasound, Color Doppler and C.T. Scan. The department is providing special investigation facilities like I.V.P, Barium Series, HSG etc, ultrasound and C.T. guided interventional procedures and also providing around the clock facilities including 24 hrs emergency services for X-Ray, Ultrasound and C.T. Scan.

The department also provides bedside X-Ray and portable ultrasound facilities to required and serious patients. The department conduct intradepartmental clinical meeting to discuss interesting cases, topics as well as recent advances.

The department is having well experience faculty dedicated to academics and the students are exposed to all on going.

Facilities

- Pathology
- Hematology
- Biochemistry
- Microbiology
- Histopathology
- Digital X-Ray
- IVP
- RGU
- MCU
- Mammography
- OPG
- Ultrasound
- 128 Slice CT-Scan
- 3-Tesla MRI
- Color Doppler
- Vascular Doppler
- Splenoportal
- Doppler
- Carotid Doppler
- Kidney Doppler

Department of Dental Science

Department of Dental Sciences at Sharda Hospital boasts of high quality facilities and an average out patient arrival rate of about 120 patients per day. The department deals in multiple areas of dental sciences and has doctors from reputed institutions working in these sub-departments. The dental sciences department provide super speciality services in the field of :

Facilities

- Oral Pathology and Microbiology
- Conservative & Endodontics
- Oral Medicine & Radiology
- Orthodontics
- Pediatric Dentistry
- Periodontology
- Public health dentistry
- Prosthodontics and Crown & Bridges

Facilities

Oral Pathology and Microbiology

Hematology, Cytopathology, Histopathology, Screening of Oral Cancer and Pre-cancer, Tumor Markers, Basic Microbiology, Forensic Odontology

Conservative & Endodontics

Aesthetic (Cosmetic) dentistry, restorative dentistry, endodontics surgeries, Equipped with RVG (digital radiograph), Full mouth bleaching unit, equipment for warm gutta percha technique for difficult root canal cases, ultrasonics, magnification equipment and variable intensity light cure units.

Oral Medicine & Radiology

Oral Medicine, Diagnosis & Therapeutics, Chair Side Investigations, Oral Radiology, Oral and Maxillofacial Surgery, Maxillofacial trauma aesthetic facial surgery, Craniofacial surgery

Orthodontics

Fixed appliance orthodontics with standard edgewise appliance, pre adjusted edgewise appliance, Begg appliance and Tip Edge appliance, removable appliances, Dentofacial orthopedics, Lingual orthodontics, Surgical orthodontics, Adult orthodontics and Adjunctive orthodontics

Pediatric Dentistry

Dentistry from birth till adolescence, deals with three sets of dentition (milk teeth, mixed dentition and permanent teeth) and hence it is a unique specialty which probably interacts with a child during the most critical age in a human's life.

Periodontology

Oral prophylaxis, Periodontal surgeries, Dental implants

Public health dentistry

Preventive: Pit & Fissure Sealant Application & Fluoride Application

Curative: Restorative, Oral Prophylaxis & Minor Extractions

Promotive: Providing periodic health education sessions to various target groups

Maintenance: Periodic recall & maintenance after comprehensive treatment

Prosthodontics and Crown & Bridges

Complete Dentures, Partial Denture, Flexible dentures Cast partial dentures, Fixed Partial Denture, Metal and Ceramic Crowns, Bridges, Implant Supported Dentures, and Maxillofacial Prosthodontics including Obturator, Ocular Prosthesis, Ear Prosthesis etc.

Department of Physiotherapy & Rehabilitation Research Centre

Department of Physiotherapy and rehabilitation at sharda hospital provides ultramodern physiotherapy treatment for the patient suffering from orthopedic diseases, muscular diseases, pain and chronic problems of joints and limbs.

The Centre now provides comprehensive services encompassing

- Speech Therapy
- Occupational Therapy
- Naturopathy
- Yoga
- Dietetics & Nutrition
- Clinical Psychologist
- Pain Clinic
- Obesity Management
- Post and Prenatal Exercise clinic (Pregnancy Related)
- Deformity Clinic

Facilities

- S.W.D. Therapy
- I.F.T. Therapy
- T.E.N.S. Therapy
- Ultrasonic Therapy
- Traction
- M.S.
- WAX Therapy
- Exercise Therapy

Superspeciality Physiotherapy Services

- Neuro Physiotherapy
- Cardiac Rehabilitation
- Pediatric Physiotherapy
- Sports Injury Clinic
